SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-40799; File No. SR-NSCC-98-07]

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Approving a Proposed Rule Change Expanding the Annuities Processing Service

December 16, 1998.

On June 24, 1998, the National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR-NSCC-98-07) pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").¹ Notice of the proposal was published in the **Federal Register** on October 19, 1998.² No comment letters were received. For the reasons discussed below, the Commission is approving the proposed rule change.

I. Description

On September 19, 1997, the Commission approved NSCC's rule filing establishing APS.³ APS provides a

centralized communication link that connects participating insurance carriers with their multiple distribution channels, including broker-dealers, banks, and the broker-dealers' or banks' affiliated insurance agencies where appropriate (collectively, "distributors"). Phase one of APS provides NSCC's participants with the ability to send and receive daily information regarding annuity contract positions, the value of each contract's underlying assets, and settlement of commission monies.⁴

The proposed rule change implements phase two of APS. Phase two provides distributors with the ability to transmit to insurance carriers information concerning annuity applications and subsequent premium payments and to settle initial and subsequent premiums through NSCC's money settlement process. Distributors will submit application information to NSCC, and NSCC will forward the application information to the insurance carrier designated as recipient by the distributor.

The subsequent premium component allows distributors to transmit to insurance carriers information related to subsequent premium payments made by annuity contract owners. Distributors will submit subsequent premium information to NSCC, and NSCC will forward the subsequent premium information to the insurance carrier designated as recipient by the distributor.

The proposed rule change provides that a distributor that has submitted application information or subsequent premium information to NSCC may also include data with respect to the annuity contract owner's initial premium payment or subsequent premium payment. If the information regarding the initial or subsequent premium payment is included with the application information or subsequent premium information, distributors and carriers will settle these payments through NSCC's money settlement system.

Distributors initiate initial and subsequent premium payment settlement by submitting instructions to NSCC. All initial and subsequent premium payments submitted on a business day prior to that day's cutoff time (2:00 pm Eastern time) will settle on that day. Payments submitted on a business day after the cutoff time will settle on the next business day. Distributors have the ability to cancel a
